

Company Presentation

Shenzhen Sungold solar Co.,Ltd

One world,One home

Concept:Gratefulness,Development,Growth;

Mission:Creating blue sky by our products and service.

About us

Shenzhen Sungold Solar co., LTD is a high-tech enterprises in shenzhen city.

We have been devoted to research and development the solar modules and various kinds of solar energy application products. It is a company integrating r&d, manufacturing and sales.

Our products are successfully sold to markets such as Asia, Europe, the America, Australia, and customers around the world has established good strategic partnership, for the global customers with perfect sales service.

Quality And Reliability

10-years warranty
Materials Technology

90% 10YEAR
80% 25YEAR

90% 10-year and 80%
25-year power output
guarantee

±3% power tolerance

Industry-leading
linear warranty

Extra Value to Customers

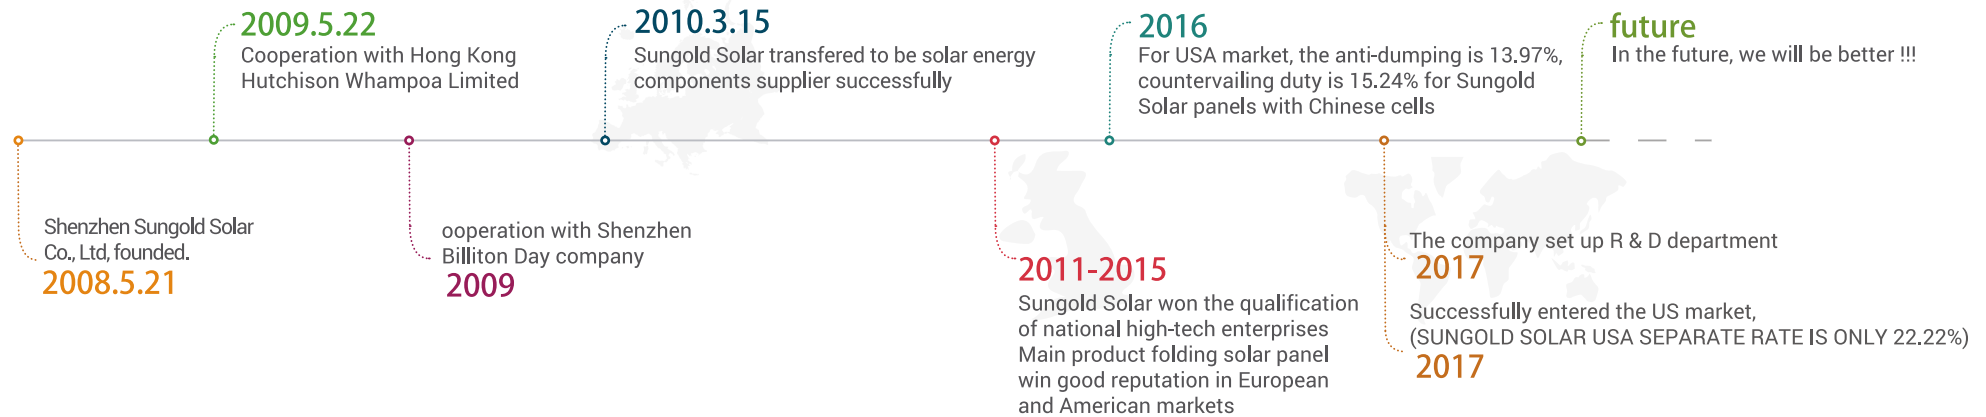

- ▶ Positive power tolerance up to 5w
- ▶ Stronger 40mm rigid frame to hold 5400pa load
- ▶ Salt mist, ammonia and blowing sand resistance apply
- ▶ To seaside, farm and desert environment

Warranty & insurance

- ▶ 25 year Industry leading linear power output warranty
- ▶ 10 year Product warranty on materials and workmanship
- ▶ Sungold solar provides 100% non-cancellable, immediately warranty insurance

Experience and a commitment to excellence

Workshop scene

Our main clients are wholesaler, distributor/dealer and project installer also. Work with clients in several on-grid and off-grid power system projects including Mono and Poly solar panel indoor.

Some of solar panels we offer

- ▶ 20w-160w ETFE light weight Aluminium Plate mono solar panels
- ▶ 20w-145w SunPower semei-flexible solar panels.
- ▶ 14w 21w 3x40w 2x40W portable solar charger.
- ▶ 4x12.5w 8x12.5w portable solar power supply
- ▶ 2x20w-2x100w/3x20w-3x60w folding solar panels
- ▶ 5w-360w monocrystalline/5w-320w polycrystalline solar panel.

Why us

Our advantages

Software

10 years professional

We have been committed to the development and research of cell components, continuous innovation, create high-quality solar cell solar panels. 10years professional staff team assurance the ISO quality system standard.

Hardware

R & D department

We introduce the newest production line, Automatic String Welding Machine, laser cutting machine, non-Pb soldering line, module testing machine, laminating machine, Frame Assembly Machine and so on. We use top-quality solar cells and EVA, TPT, strengthen glass, seal silicon etc. High-tech equipment allows us to produce a wide range of Photovoltaic solar panels, totaling up to 60 MW per year.

Market

Worldwide

Sungold solar have sold solar panel series products to USA, Canada, Germany, United Kingdom, Denmark, Sweden, Poland, Italy, Greece, Australia, New Zealand, Japan, Korea, India, South Africa, and so on. We are always on the way, never stop....

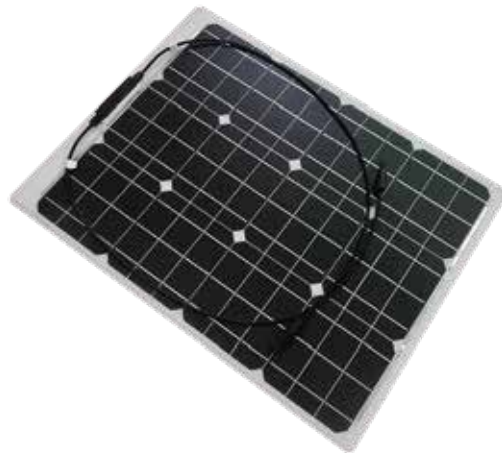

Product Series

Lightweight solar panel

ETFE light weight Aluminium frame mono solar panel

Made of aluminium back sheet, It is more resistant to high temperatures than TPT back sheet. Solar panel can not be curved and easily mounted on an RV, boat, cabin, or tent

Enter website

ISO 9001:2008, NO: ABZB16Q20328ROM
ISO 4001:2004, NO: ABZB16E20060ROM

We meet the most demanding international quality standards, only in this way we can ensure the success of our clients.

Thanks to the research and development efforts carried out in recent years, we have completely redesigned our Series pv modules. A solar module that allows us to offer 10 years of production guarantee.

ETFE or TPT SURFACE

TPT is robust and unlikely to degrade from exposure to environmental pollution, UV light, harsh chemicals or extreme temperature variations. High light transmittance, Stain resistance Non-stick and easy to clean.

AFFORDABLE PRICE

NOT SunPower Solar cells. Quality Solar panels with less cost, Normal Mono Poly solar cells are available.

ALUMINIUM BACK SHEET

More resistant to high temperatures and it is better to combine with ETFE film than PET back sheet. Made of ETFE surface, aluminum and TPT backsheet

EASY TO INSTALL

Perfect for curved roofs and surfaces where bonding is possible. Panels can also be secured by bolts or screws for further stability.

ETFE Aluminium Plate Solar Panel Solution Provider

Customized energy solutions

20W/50W/60W/100W/120W/160W Solar Panels that are Lightweight, Shatterproof, High Transparency, Low Glare, High Efficiency, Frome Sungold

flexible solar modules

20w-145w SunPower semi-flexible and lightweight solar panels. These can be used for boats, marines, RV and more. ETFE flexible solar panel
Light Transmittance upto 93%

ETFE solar panel

ISO 9001:2008, NO: ABZB16Q20328ROM
ISO 14001:2004, NO: ABZB16E20060ROM

We meet the most demanding international quality standards, only in this way we can ensure the success of our clients.

Thanks to the research and development efforts carried out in recent years, we have completely redesigned our Series pv modules. Now much more for less. A solar module that allows us to offer 2 years of production guarantee.

Grade A+ Cells

We select the best solar cells to get a high performance output modules, allowing us to create a high quality and efficiency product.

1 Years Linear Warranty

Enjoy now with the new 1 year linear power warranty.

Convenient

The panel reserved buttonhole increased Easy of installation
,Light weight and thin contain No glass or aluminum

Easy to use

Can be conveniently placed on curved solid surfaces

Enter website

Solar Panel Solution Provider

Customized energy solutions

Curves up to 30 degrees 82 % lighter than other solar modules
Durable surface is less than 1/8" / 3mm thick; Kits includes PWM Solar
Controller; Flexible, high-efficiency back-contact cells; Penetrating or
adhesive mounting options; Marine grade material;
Conforms to almost any surface

Product Series

Portable Solar Charger portable solar power supply

Portable solar power kit is widely used in outdoor geological mapping, hunting, self-driving tour, camping, outdoor communications of army and other fields. Mono, Poly solar cells are all available, it is economical and practical .

ISO 9001:2008, NO: ABZB16Q20328ROM
ISO 4001:2004, NO: ABZB16E20060ROM

We meet the most demanding international quality standards, only in this way we can ensure the success of our clients.

Thanks to the research and development efforts carried out in recent years, we have completely redesigned our Series pv modules. A solar module that allows us to offer 10 years of production guarantee.

Perfect Power Supply

Mono and solar cells with affordable price, reduce the cost of lightweight portable solar panel charger.

HIGH QUALITY

The high quality materials, for example USB adapter or Anderson Plug Alligator Clips, Weather-resistant polyester canvas cover, make it anti-ultraviolet and wearing resistant.

POWER MANAGEMENT SYSTEM

The charge controller has a built-in intelligent control module with overcharge protection, Reverse current protection and over-temperature protections. Voltage Equalization for Lithium-ion Battery Cells+

POSITIVE POWER TOLERANCE

Performance-Based Practical Design, such as , well-placed holes for easy attachment, storage pocket to place mobile phones, power banks and other items to be charged.

Solar Charger Solution Provider

Customized energy solutions

Portable solar power kit is widely used in outdoor geological mapping, hunting, self-driving tour, camping, outdoor communications of army and other fields. Mono, Poly solar cells are all available, it is economical and practical .

Portable solar charger

2017 New products 14w 21w 3x40w 2x40W portable solar charger.
Output even without direct sunlight

Enter website

ISO 9001:2008, NO: ABZB16Q20328ROM
ISO 4001:2004, NO: ABZB16E20060ROM

We meet the most demanding international quality standards, only in this way we can ensure the success of our clients.

Thanks to the research and development efforts carried out in recent years, we have completely redesigned our Series pv modules. A solar module that allows us to offer 10 years of production guarantee.

Grade A Cells

We select Sunpower solar cells to get a high performance output modules, cell efficiency 18.4%

Indicator light

The signal light will turn Blue when the charging device connected with the USB output interface through the charging line.

Convenient

Small size only 1/3 than regular rigid solar panel
Only 20mm very thin,portable with carrying bag

USB Connector

USB solar panel charger,Can charge iphone, Andriod etc smart phones.

Solar Charger Solution Provider

Customized energy solutions

SunPower Portable solar power kit is widely used in outdoor geological mapping, hunting, self-driving tour, camping, outdoor communications of army and other fields. 14W,21W, 80W,120W with 5V/12V output.

Product Series

Folding solar modules

With a power range from 2x20w-2x100w two folding solar panel or 3x20w-3x60w three fold solar panel easy storage and transit.

Enter website

ISO 9001:2008, NO: ABZB16Q20328ROM
ISO 14001:2004, NO: ABZB16E20060ROM

We meet the most demanding international quality standards, only in this way we can ensure the success of our clients.

Thanks to the research and development efforts carried out in recent years, we have completely redesigned our Series pv modules. Now much more for less. A solar module that allows us to offer 25 years of production guarantee.

Grade A Cells

We select the best solar cells to get a high performance output modules, allowing us to create a high quality and efficiency product.

25 Years Lineal Warranty

Enjoy now with the new 25 year linear power warranty and 10 years product warranty offered by Tamesol.

Power Tolerance

The result of A plus cells selection, becomes into quality modules with positive tolerance up to 5w.

Easy to fold

Compact size folding easily for storage and transit

Solar Panel Solution Provider

Customized energy solutions

These caravan solar power kits are rated from 15W upwards and are for 12V battery charging. The range includes instructions & panels for fixed installation or free-standing/portable and even solar panels! See each kit for accessories provided. Not an expert?

Our kits include instructions to help you set things up.

Product Series

Mono/Poly solar modules

With a power range from 5W to 360W monocrystalline or 5W to 320W polycrystalline photovoltaic modules technology, Series from Sungold, becomes the best alternative for your project.

ISO 9001:2008, NO: ABZB16Q20328ROM

Solar Panel Solution Provider

Customized energy solutions

From material procurement at low costs to mechanical structure fabrication close to point of installation, sungold Energy has attained a higher level of The off-grid solar power irrigation solution.

Win-win Cooperations

Committed to become the global solar modules outstanding producers, and win-win with customers. In good faith, adhere to innovation, to create green energy.
